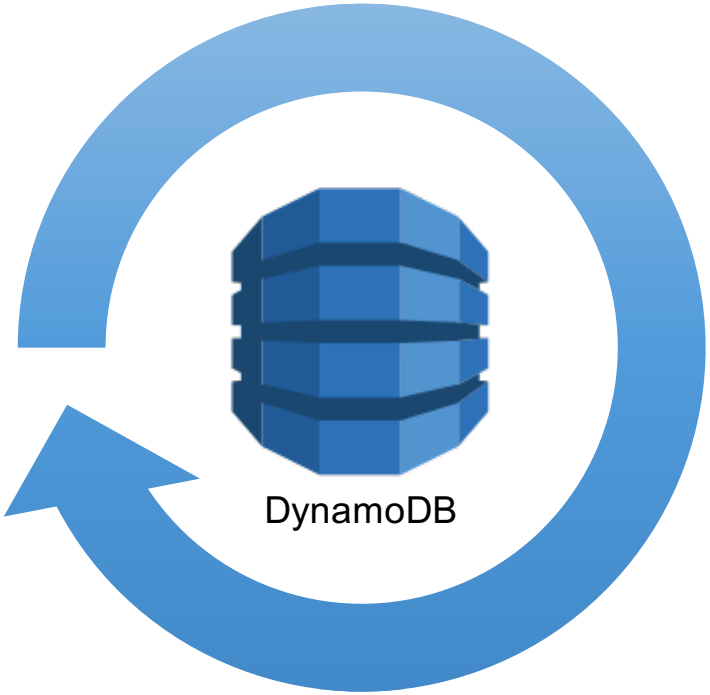
Feedback



Scalability beyond “just” production

What about your Continuous Integration “server”?

So, how many servers do we need?

10:00 14:00 18:00 22:00 02:00

The Price Estimation model generation pipeline

	Family	Type	vCPUs	Memory (GiB)	Instance Storage (GB)	EBS-Optimized Available	Network Performance
	General purpose	m4.10xlarge	40	160	EBS only	Yes	10 Gigabit
	Storage optimized	d2.8xlarge	36	244	24 x 2048	Yes	10 Gigabit
	Compute optimized	c4.8xlarge	36	60	EBS only	Yes	10 Gigabit
