# Past Survey

# Well-Defined?

> 90%

I was impressed and surprised

# Succeeding?

< 5%

Very sad

Agile will not  
succeed without  
addressing  
legitimate concerns  
of EAs

define the terms

Agile will not  
succeed without  
addressing  
legitimate concerns  
of EAs

Agile will not  
succeed without  
addressing  
legitimate  
concerns of EAs

Agile will not  
succeed without  
addressing  
legitimate concerns  
of EAs

How, what, and  
why

How to get work  
done?

Seagull

# Pair on critical stories

Think delusionally

# Alignment

# Pattern 1: Member of the Team

What to deliver?

Documents from  
on high

# Technical Stories

# Acceptance tests

# Enterprise Re- Use Framework

# Harvested Components

# End-point Integration Tests

# Pattern 2: Communication in Project Context

How to decide?

Us and them

# Stakeholder Negotiation

All or nothing

# Informed risk taking

# Pattern 3: Project Decisions in Enterprise Context

# Recap of patterns

# Pattern 1: Member of the Team

# Pattern 2: Communication in Project Context

# Pattern 3: Project Decisions in Enterprise Context

Necessary but  
not sufficient

# Questions?
